
APPENDIX B BIBLIOGRAPHY

Note: A modified version of the MLA format for citations was used in *HES 2000*. Works are cited in the text in the following format (Author Year, Page).

Subsequent citations from the same work with no intervening citation from another source are identified only by page number, e.g., “(34),” if available. To differentiate between multiple works by the same author or organization published in the same year, a lowercase letter is used after the date. This letter corresponds to the work’s listing in the bibliography (e.g., HECO 1999a, HECO 1999b).

In this bibliography, if the document is identified by other than the author’s last name, the identifying word is indicated in parentheses.
